**Mouse Anti-Influenza B Monoclonal Antibody**

**Mouse, Monoclonal (Influenza B)**  
Cat. No. DMAB8923  
Lot. No. (See product label)

### PRODUCT INFORMATION

**Product Overview:** Mouse monoclonal antibody to influenza B.  
**Immunogen:** Recombinant NP  
**Sensitivity:** Monoclonal antibody recognizes an Influenza B virus group specific antigen.  
**Host animal:** Mouse  
**Clone:** Dpw2D3  
**Isotype:** IgG1/Kappa  
**Form:** Ascitic fluid  
**Cross reactions:** No cross reactivity with influenza A or with other respiratory viruses.  
**Application:** Optimal dilutions should be determined by the end user. The following are guidelines only: ELISA: 1:2000 - 1:10000; Immunocytology on infected cells (IF): 1:100 - 1:500; Western Blot: 1:200 - 1:1000.
